

Criminal Defence Lawyers Richmond

Criminal Defence Lawyers Richmond - Our firm specializes in providing legal suggestion in technology law for technology-related companies. The growing field of technology law now comprises e-commerce, computer hardware and software, pharmaceutical, biotechnology, telecommunications, multimedia, television and film, interactive media, broadcasting, as well as Internet-related businesses. Technology businesses today require professional suggestion suited to their unique requirements.

Our firm concentrates on technology law in the field of mergers, private and public financings, divestitures and acquisitions, licensing agreements and technology agreements. Clients seek out our services and our technology law experts for specific advice associated to contract negotiation and other various transactions. Other services include employment audit and intellectual property, the preparation of agreements, like consulting and employment agreements, and agreements associated to technology marketing and distribution. Intellectual property protection concerns patents, copyright, trade-marks, industrial designs, and trade secrets. E-commerce issues encompass website development and infrastructure, Internet access, and maintenance agreements.

Working in conjunction with Securities, Intellectual Property, Commercial, Labour & Employment, and Tax & Trusts lawyers, our lawyers to provide advice to technology clients on several corporate matters. Technology law experts work with private venture funds which offer capital to emerging technology companies.

In infringement cases, our litigation lawyers represent our clients interests before all levels of court related to trade-marks, trade secrets, patents or copyrights. Before the situations escalate, our teams of litigation lawyers act rapidly to resolve intellectual property, contractual, financing and employment disputes. The early identification of probable matters is a top priority. To prevent problematic matters associated to unjust trade practices and false and misleading promotion, clients receive suggestion regarding the legalities of advertising and the correct marketing of products and services. Guidance is provided on such legal issues as trade-mark registration and use, privacy, packaging and labeling, and comparative advertising.
