

Trademark Lawyer Richmond

Trademark Lawyer Richmond - Your company's visible identity is established with a trade-mark. A trade-mark helps distinguish your company's products and services from the services and products of your competitors. The reputation of your business is maintained and built on its brand, its foundation. Our office knows that a company's trade-mark is among its most-valuable assets. From product development to package design to advertising, a substantial amount of resources are used in protecting and developing a firm's brand.

Our office provides all services connected to trade-marks. We file and prosecute trade-mark applications and we are able to conduct trade-mark searches so as to make certain that the trade-mark is available for registration and use. And we actively enforce trade-mark rights versus infringement. Our office could also help with worldwide trade-mark applications via our established global network of trade-mark agents.

We offer trade-mark validity and infringement opinions, and trade-mark registrability searches and availability searches, in addition to offering trade-mark registrations, comprising the preparation and prosecution of trade-mark applications. We also oversee global trade-mark applications.

A trade-mark opposition comprises the cancellation proceedings of registrations, for non-use or various reasons and opposing the registration of confusing trade-marks by other entities. When infringement causes litigation, our trade-mark litigators would act for our clients throughout infringement and domain name disputes.
